He said that he went behind the bar, and seeing the safe door unlocked, and knowing its contents, and no one being in sight, the temptation suddenly came upon him to take the money. Without stopping to think of consquences or the nature of the action, he yielded to the temptation, went to the safe. took out the sack containing the money, placed it on the floor at the end of the bar, and then walked around the front of the bar and drew the sack out between the upright pieces which form the railing around the end of the bar, went out into the street and wrapped it up in a pair of overalls, went and placed it where it was afterwards found. He says that as soon as he got into the street with it he would have given anything to have had it back in the safe. The entire amount taken was recovered.

Friends of the P. & A. C. R. R. have inaugurated an active war Subscribe for the Journal-Miner. the S. That such a posiests of the town every disinterested person can readily see at a glance, Without detracting in the least from what Mr. Bullock has done, it will be well at the present time to look back and see what he has promised, but has not done. By referring to the files of the Phenix papers, we find the following in the Herald, published in March, about the time the exemption bill was passed:

"Mr. Bullock, in an interview, had with him, states that if the exemption bill is passed and not saddled commence operations on the road

inside of twenty days." The exemption bill was passed without the "dreaded" saddle of a freight bill. Has Mr. Bullock kept his word!

Again, the Herald of March 17th "Mr. Wilson, of the Prescott & Arizona Central road, assures the Herald of the full intention of his company to take advantage of the

Witness my hand this sixteenth Nearly three months have elapsed sinbe the above instrument was filed tween his promises, and the actions of the new company, as would seem from the action of his friends, there s nothing left for the people of this section, to do but accept the gaunt-

let he throws down, and as representing the true interests of this town and section, the Journal-MINER will be found on the side of progress. Mr. Bullock has held the railroad situation here for years and has done nothing towards extending his line to Phenix as agreed by him. Let the citizens of Prescott taka action and act promptly, and within less than two years we will see the population of the town doubled.

The Railroad Meeting. Another enthusiastic railroad neeting was held in the court house last evening. The committee appointed to confer with property owners in regard to the value of property, necessary to purchase for depot grounds and switch vards. made its report. The total value as returned by the owners amounted to \$25,425. The committee also gave some comparisons between the valnes as reported to them, and that returned to the assessor. One piece, assessed for \$250, was returnassessment roll, was valued at \$3,ble valuation on property, but in a majority of instances the price was considered too high, and they recommended that the property be not purchased at the figures named, but that it be condemned by the process

of appraisers. The committee of attorneys also submitted its report on legal propo-
